

PLN Bootcamp:
*Nurturing & Challenging
the Gifted Reader*

Join Dr. Sara Tilles and Other Educators in Professional Learning.

In this session, we will examine the unique needs of the gifted reader within the context of the regular education classroom. Educators develop lessons and literacy routines that support readers in developing higher order and critical thinking skills when transacting with text. Participants learn to choose texts and literacy practices that strike a balance between the advanced reading level and the social-emotional needs of the child. They explore strategies that will benefit all learners while providing our gifted readers with the level of rigor and stimulation they require and deserve.

We will explore strategies that integrate PLN's Four Lenses of Learning and The Five Reading, Writing and Talking Processes in ways that appreciate the unique needs of the gifted learner. Participants will leave with a lesson modified to accommodate the gifted and advanced readers in their classrooms.
